

I would like to express all my sincere gratitude to all members of our IWC for voting me to judge this special Limited Show. I am very lucky and proud to have seen so many good puppies, youngsters and adults hounds in all these years jumping from Tenerife to your U.K. Shows.

For any enthusiastic of the breed is a MUST to follow your hounds, their developing, their litters and how they grow and also be part of their achievements. I am very honoured to be here at this splendid venue and so well organized show. Thanks so much to Debbie, Hazel and Alan for their valuable help in the stewarding and to Sue Cole for addressing so nice the event.

As I told you all at the beginning of the show, I perfectly understand that many of you had to leave home after the championship show, others also left to be at the FIWC Congress in France, in any case many thanks again to all of you for being so patient and brave to attend this Club Show and support my assessment. I truly believe and defend everywhere our system to get into the IW judging applying that big treasure we all have; The standard of excellence and list of points in order of merit, as it is the only way to preserve the IW type & conformation. I remember well 8 years ago at Denmark`s Congress (at that time EIWC), several members of the Federation mentioned the possibility of the “review of the IW standard” Our UK delegation together with the Irish and Northern Ireland Clubs were a little bit shocked and our lovely friend Betty Murphy stated so clear and in such natural way “ There is nothing to change” “ We all UK, IRL and Northern Ireland Clubs welcome any person interested in the breed to meet our hounds, interpretate the Standard of Excellence & list of points in order of merit, and learn how to judge them.../...And this is my duty today dear members, do my best in choosing good representatives of the breed.

I was very pleased today to see type and conformation, good heads, long and expressive, good bites, good coats rough and hard, especially in this time of the year as well as a great surprise with the long and strong tails well set and carried. I truly look forward we can improve the ears, today I have seen beautiful hounds spoiled with large flat ears.

**MINOR PUPPY DOG**

## **1° AUSTONLEY'S FALCON**

**6 months old wheaten male. Good bone and substance, very well developed for his age. He moves very well with style and well synchronized, head carried high, good eyes and kind expression, neat ears, good top line and tail set. Liked very much the length of his neck. Feet are ok just a little bit flat at this stage. Long body needs more front assembly which I am sure he will gain with time. The reason to be best puppy male is his aptitude on the ring and his easy and active movement, he really has it!**

## **2° HOLLYHENGE BLACK RUSSIAN**

**8 months old gray brindle male. Good front and bone, nice long head , Good bite and good eyes, excellent hindquarters and rear standing still and very well coming and going.very well angulated behind strong rear , very nice topline well arched loins and good tail. Good underline as well.**

## **3° HOLLYHENGE CARUSO OF TORTEVAL**

**8 months old gray brindle male. Litter brother to#2. good eye and also nice long head, he needs more substance and is also a little bit long in loin. His brother#2 is much better angulated behind. At the movement I would like more parallel coming and going**

## **PUPY DOG**

### **1° DUKESARUM YOHJI**

**9 months old gray brindle very pleasing type excellent length of body. Good ears and correct bite. Nice long tail set and carriage. I liked very much his length of neck and the proportions of head&muzzle, well balance hind quarter angulation Very good top line and underline. Good legs and feet. Good thigh and second thigh long and muscular, needs more front assembly**

## **JUNIOR DOG**

### **1°BARRASSY SHOOTING STAR AT KILLOUHERY**

**14 months old light brindle powerful and masculine, well balanced and muscular commanding male , excellent depth and width, masculine head good ear set and neat ears, good dentition, eye colour blends with coat , great layback of upper arm, powerful neck , very good feet , coat rough and hard, not a big**

male but has a lot of quality, balance and commanding appearance. Just a little bit heavy today but did the job perfectly! Covering plenty of ground a great mover and a very pleasing outline, all reasons to become best junior male.

### **2°BALLYPHELAN ASANSOL AMONG NECKREBAGH**

14 months old gray brindle male. Lovely curves and type, good top line good rear angulation. Very nice long head and small ears good eye and bite. I would desire a more powerful neck. A tall dog who needs more training and work on carriage high that beautiful masculine head to show his great potential, he has a better rear movement with lots of energy but needs to improve coming and going and to cover more ground, he definitely needs to mature and developed more strength and power. A very very promising youngster.

### **3°DUKESARUM GIACOMO**

18 months brindle male, a very masculine head and excellent neck very good deep chest, well ribbed , good tail set , flat ears hanging close to head , good eyes and bite. Very good legs and also has the best feet in the class. Moves with a nice balance but hocks in at standing, perhaps due to his lack of angulation in the stifle, on the other side his forelegs are well straight and his elbows well set under.

### **RES. BARRASSY BY DEFINITION**

14 months old gray brindle male. Interesting type, very nice masculine head and kind expression , good bite, eye and ears. Plenty of depth of chest, good bone also, excellent hindquarters which he used well on the move enjoying such a good drive. Nice tail set.

Today his front movement was just acceptable as his two bursas made him lifting his front legs and could get no much extension and obviously unables his coming and going movement. I look forward to see him again without these two big bursas which I admit is a pain in the neck!!!

### **VHC LORD AINMIRE OF MANDALINCA**

20 months old male. Good size but needs much more substance and muscle, too straight behind, good bite, light eye colour, the top line is fine, very long tail he really does not coordinates well the movement and raises his tail. Too wiry today I am sure with a little bit of grooming his head would look better as well as the underline. It is important too see well furnishings heads specially wiry and long over the eyes and under jaw.

### **YEARLING DOG**

### **1° GOLDSWIFT MISSION POSSIBLE FOR INKLEYBOYS**

**20 months light brindle. Powerful dog, Masculine and expressive head very good pigmentation, good ears , bite and eyes, good tail set, good size , strong thick and well covered with hair. Excellent top line, great proportions and balanced male, well made very sound and pleasing in many ways , strong neck of acceptable length, good angulations front&rear. Good shoulders and upper arm, His easy and active performance together with his straight and firmed back on the move made him win this class,**

### **2° GOLDSWIFT PHOENIX KISS**

**20 months light brindle. Nice head, masculine and kind expression good eyes. Good pigmentation and good bite , very similar in type to litter brother#1, Very good feet good top line and underline. Good upper arm and front deep chest well ribbed back, a little close behind on the move, good tail set and carriage,**

**This dog also won the novice class, as I mentioned to his owner I would leave him more leash and enjoy the speed I believe he will get better movement coming and going.**

### **3° GOLDSWIFT SPARTAN'S SECRET**

**20 months old brindle. Litter brother to #1&2, Good head and neck. Good ears bite and eyes , Nice tail set, strong and well carried, in the coming and going he jumps a lot, needs to develop better movement in the ring.**

### **RES. BONAFORTES MELDREW**

**19 months old wheaten male, good eye and flat ears , he carried his tail too high at this show, needs more muscle in the rear the thigh and second thigh are fine , the front angulation is acceptable but on the move there is no extension of the front legs.**

### **NOVICE DOG**

### **1° GOLDSWIF PHOENIX KISS**

**20 months light brindle. Nice head, masculine and kind expression good eyes. Good pigmentation and good bite , very similar in type to litter brother#1, Very good feet good top line and underline. Good upper arm and front deep chest well ribbed back, a little close behind on the move, good tail set and carriage,**

**This dog also won the novice class, as I mentioned to his owner I would leave him more leash and enjoy the speed I believe he will get better movement**

coming and going.

### **2° MASCOTTS STORY MAKER**

21 months old gray brindle. Today he was a little bit overweight for my taste, a lot of things I like of him but needs more muscle on his rear to be able to do the job. Nice head and long neck , neat ears , good lay of shoulder and good upper arms, little narrow on the front Would like more width. The underline was not well defined I could see the belly down, probably the reason he could not move well today.

### **3° LORD AINMIRE OF MADALINCA**

20 months old male. Good size but needs much more substance and muscle, too straight behind, good bite, light eye colour, the top line is fine, very long tail he really does not coordinates well the movement and raises his tail. Too wiry today I am sure with a little bit of grooming his head would look better as well as the underline. It is important too see well furnishings heads specially wiry and long over the eyes and under jaw.

### **POST GRADUATE DOG**

#### **1° GOLDSWIFT FLUKE AT RAINSTER**

20 months old gray brindle. A beautiful type of great size with a really commanding ring presence with curves in the right places good substance and muscle. Great outline and balance. Lovely head ( houndy and masculine expression) Good eyes , rose ears. And correct bite . Good forechest and powerful arched long neck , well sprung ribcage. Muscular hindquarters and excellent topline and underline.

Good tail set, long and carried well. Moved very well from side, front and back. Needs to get more confidence in the judging in order to compete with the big boys!!. I must admit I am happy he has no CC yet, so I could enjoyed judging him. He was my best male and BIS.

#### **2° BONAFORTES MELDREW**

19 months old wheaten male, good eye and flat ears , he carried his tail too high at this show, needs more muscle in the rear the thigh and second thigh are fine , the front angulation is acceptable but on the move there is no extension of the front legs.

## **VETERAN DOG**

### **1° BALLYPHELAN PANTHER CORNOVI**

**9 years old dark brindle. A magnificent representative of our standard of excellence. Best Veteran and Res.BIS**

**Beautiful long head, as well as his pointed muzzel , masculine and kind expression. Perfect rose ears, dark eyes. Plenty of depth of chest and good bone- Excellent hindquarters which he stills using well at 9 years old!!!-**

**fantastic substance and great coat condition rough and hard. The undercoat was also in great condition. I was really surprised to look at this commanding and muscular gentleman so well built , moving so easy and active with his head and neck carried high at the the males Final. I Really wish him a healthy& happy&loving years.**

## **VETERAN BITCH**

### **1°-HIBECK MISS DIOR**

**7 years old Brindle veteran, very good coat condition , feminine head and strong neck, neat ears and dark eye. Great tail set and perfect carriage. Excellent substance, top line is ok , well under elbows, Her hindquarters are exceptional for her age and thighs are muscular, strong and long, hocks are nicely let down. Her well angulated front, deep chest and long body covering plenty of ground is the reason to become best bitch and BOS.**

## **MINOR PUPPY BITCH**

### **1° HOLLYHENGE CARRIBEAN KISS**

**9 months old dark brindle. Lovely proportions, good size of head&muzzel feminine expression good eyes and ear set, level bite. Neck well arched and well carriage on the move. This girl really shows a very attractive underline and top line , long body and beautiful loinarch blending smoothly into strong broad hindquaters which ends into a perfect tail set. She covers plenty of ground, moved well and enjoys the show. This big girl needs to mature slowly , she is leggy and well constructed, very good feet.**

**I will play a lot of attention in her growing letting her grow as slow as possible-**

### **2° HOLLYHENGE BERRY BLISS OF TORTEVAL**

**9 months old dark brindle litter sister to #1. very houndy and femenine puppy. Good ear eyes and bite, less angulation than her sister I would desire more angulation in the rear , she needs to develop in body Good tail set. She moved well from the side but needs to improve from behind.**

### **3° AUSTONLEY'S FORTUNE OF SHALICO**

**6 months old wheaten bitch. A little overweight today but is ok (puppy fat) good pigmentation, neat ears and dentition. Good tail set, Needs more time to built up, a little bit straight behind, soft hocks at this stage, coat could be a little harsher . I would play attention at her bald spot on the rightside of her lumbar. She enjoys the ring and moves with energy.**

### **PUPPY BITCH**

#### **1° DUKESARUM LILYBET**

**9 months old brindle. Powerful and commanding puppy. Femenine expression. Nice ears and strong neck well set into nice shoulders , good dark eye and bite, nice tail set and carriage on the move, good front angulation and deep chest, good proportion of the upper arm. Good bone and very shapely. Great underline.**

**Moved with long free stride and true front and rear. She is a very promising puppy and the reason to become Best Puppy in Breed.**

### **JUNIOR BITCH**

#### **1° BONNIES SONAS OF MADALINCA**

**14 months old wheaten. Good size with good bone and musculature , perfect bite, good pigmentation . Nice outline good head, eyes and expression, ears often flat , Very good neck, nice shoulders and upper arms , deep chest well ribbed and clear tuck up. Nice tail set, good harsher coat. Good top line with a nice loinarch . Good hindquarters with plenty of breadth and angulation, moved very well. Feet could be more closed and the pastern more straight.**

#### **2° DUKESARUM CHIARA**

**17 months old brindle. Nice houndy type. Good size , head should be more femenine. Good eye, ears could be better , Good underline, clean boned a little bit long in loin , needs to get more substance, good tail set and carriage, I would desire a longer neck , well angulated hindquarters, moved with drive and grace.**

### **YEARLING BITCH**

### **1° CAREDIG ALIS**

**22 months old brindle. I personal liked the way her neck fitted into her well laid shoulders , lovely curves and houndy type. Beautiful femenine head, and expression , ears could be better. I would desire she had more forechest and a little more size. Moved well coming and going**

### **2° GOLDSWIFT INYOURDREAMS**

**20 months old brindle. At first sight I would desire more femenine expression, looking from far away is not easy to determine the gender. Good ears, bite and eyes. Strong topline & shoulders, compact bone , good spring of rib and depth of chest. Covering plenty of ground when moving, today she was a little bit heavy but moved well. Tail carriage could be better,**

### **3° GOLDSWIFT LEAP OF FAITH**

**20 months old brindle. Medium sized bitch, Good ears, bite and eyes. Needs more muscle . Lovely femenine head and sweet expression. Good tail set and carriage , I would desire more lenth of neck and leg . Feet could be better, shoulders too straight and also neds more front, her front legs should be more paralell , she loses outline on the move but she is freely from side but a bit close front and back.**

### **NOVICE BITCH**

#### **1° BONNIES SONAS OF MADALINCA**

**14 months old wheaten. Good size with good bone and musculature , perfect bite, good pigmentation . Nice outline good head, eyes and expression, ears often flat , Very good neck, nice shoulders and upper arms , deep chest well ribbed and clear tuck up. Nice tail set, good harsher coat. Good top line with a nice loinarch . Good hindquarters with plenty of breadth and angulation, moved very well. Feet could be more closed and the pastern more straight.**

#### **2° GOLDSWIFT INYOURDREAMS**

**20 months old brindle. At first sight I would desire more femenine expression, looking from far away is not easy to determine the gender. Good ears, bite and eyes. Strong topline & shoulders, compact bone , good spring of rib and depth of chest. Covering plenty of ground when moving, today she was a little bit heavy but moved well. Tail carriage could be better,**

## **POST GRADUATE BITCH**

### **1° CAREDIG ALIS**

**22 months old brindle. I personal liked the way her neck fitted into her well laid shoulders , lovely curves and houndy type. Beautiful femenine head, and expression , ears could be better. I would desire she had more forechest and a little more size. Moved well coming and going .**

## **LIMIT BITCH**

### **1° GLENGAIL GGLENYS**

**3 year old gray brindle. Excellent femenine head, sweet expression good pigmentation dark eye, good bite and neat ears. Powerful neck , strong elegant bitch with a lovely length of muzzel , good coat condition and tail set well carriaged on the move. strong top line and correct underline , compact bone excellent feet , moved with drive and grace today but did not move as well as the veteran bitch who covered plenty of ground and whose powerful hindquarters gave advantage to become BOS.**

### **2° BRIBIBA CUAN GHRA OF MADALINCA**

**3 year old dark brindle. Nice type , femenine expression and excellent head proportions, lovely pointed muzzel, good eye, bite and eyes, good bone. Very nice neck well set into the body, good shoulders and upper arm . Good forechest , good feet and straight front legs. Her rear is a little bit straight and also her topline could be better. On the move she was too straight behind, overall she has quality.**
